META TAGS & PAGE TITLES

(6 PTS)

4/6

☒

Title tag present and ≤ 60 characters

+2 Pts

☒

Meta description present and ≤ 160 characters

+2 Pts

☐

Open Graph / Twitter meta tags present

+2 Pts

Add Open Graph and Twitter Card meta tags for better social media sharing previews and increased engagement.

HEADINGS & STRUCTURE (5 PTS)**5/5****Page has one <h1> and meaningful <h2>/<h3> structure****+3 Pts****No heading tag misuse (e.g., multiple h1s)****+2 Pts****INDEXING & CRAWLABILITY** (5 PTS)**1/5****robots.txt file present and valid****+1 Pts**

Ensure a valid robots.txt file is present to guide search engine crawlers effectively. Check for unintentional disallows.

KB-DIAGNOSTIC [↗](#)**sitemap.xml accessible****+1 Pts**

Provide an accessible XML sitemap and submit it to Google Search Console and Bing Webmaster Tools.

KB-DIAGNOSTIC [↗](#)**noindex not set on main pages****+1 Pts****Canonical tags used properly****+2 Pts**

Implement canonical tags correctly (self-referencing or to the main version) to avoid duplicate content issues and consolidate link equity.

KB-DIAGNOSTIC [↗](#)**SCHEMA MARKUP** (4 PTS)**0/4****JSON-LD or Microdata schema present (Article, Organization, etc.)****+4 Pts**

Add structured data (Schema.org markup) like Article, Organization, BreadcrumbList, or FAQPage to help search engines understand your content and potentially enable rich snippets.

KB-DIAGNOSTIC [↗](#)**INTERNAL LINKING** (5 PTS)**3/5**

**Interlinking between articles/pages exists****+3 Pts****No broken internal links (simulated)****+2 Pts**

Regularly check for and fix broken internal links to improve user experience and crawlability. Use tools like Screaming Frog.

MOBILE SEO & ACCESSIBILITY (5 PTS)**1/5****Mobile-friendly viewport configured****+1 Pts****ALT text on images (simulated check on prominent images)****+2 Pts**

Provide descriptive alt text for all important images to improve accessibility for visually impaired users and provide context to search engines.

**Semantic HTML tags (header, nav, footer) used****+2 Pts**

Use semantic HTML5 tags like <header>, <nav>, <main>, <article>, <aside>, and <footer> to structure your content meaningfully.

**CONTENT QUALITY & COMPLIANCE****7/18 ITEMS • 30 WEIGHT****11/30****37% INTENSITY****Pre-Verify All****Clear Items****ARTICLE COUNT & DEPTH (8 PTS)****2/8****Minimum 20 indexed articles (simulated)****+2 Pts**

Aim for at least 20-30 high-quality, indexed articles or pages to show site substance. Quality over quantity is key.

**Minimum 600 words per article (average, simulated)****+2 Pts****Original content (simulated plagiarism/AI check >80% original) +2 Pts**

Content must be original and unique. Avoid plagiarism and ensure any AI-generated content is heavily edited, fact-checked, and provides unique value.

**Clear, useful language (simulated Flesch score > 60) +2 Pts**

Write clearly and concisely for your target audience. Aim for a Flesch Reading Ease score of 60 or higher for general audiences.

E-A-T SIGNALS (7 PTS)**2/7****Author info or byline present****+2 Pts****Site mentions credentials or experience +1 Pts**

Showcase any relevant credentials, expertise, awards, or experience on your 'About Us' page or author bios to build trust.

**External backlinks to trusted sources (simulated) +2 Pts**

Link out to authoritative and relevant external sources where appropriate to support your content and demonstrate research.

**Outbound links open in new tab with rel attributes (e.g., noopener) +2 Pts**

Ensure external links open in a new tab (target="_blank") and use rel="noopener noreferrer" for security.

LEGAL & TRUST PAGES (8 PTS)**7/8****Privacy Policy page present & comprehensive****+2 Pts****Terms & Conditions page present & clear****+2 Pts****Disclaimer page present (if applicable) & visible +1 Pts**

Provide a Disclaimer page, especially if offering advice (financial, health, legal, etc.) or using affiliate links. Make it easy to find.

Contact Us page with functional, real email/form

+1Pts

About Us page with transparent person/entity details

+1Pts

Cookie Consent mechanism functional (for EU/GDPR traffic)

+1Pts

ADSENSE CONTENT POLICY COMPLIANCE (7 PTS)

0/7

No adult/pirated/violent/dangerous content

+3 Pts

Strictly adhere to AdSense content policies. Remove any content related to adult themes, pirated software/media, violence, hate speech, illegal drugs, weapons, etc.

[KB-DIAGNOSTIC](#)

No excessive profanity or hate speech

+1Pts

Maintain a professional tone and avoid excessive profanity, offensive language, or hate speech.

No misleading health or financial claims

+2 Pts

Avoid making unsubstantiated or misleading claims, especially in health and finance niches (YMYL). Content should be accurate and trustworthy.

No scraped or spun content

+1Pts

All content must be original and provide unique value. Scraped, aggregated, or heavily spun content will lead to rejection.

TECHNICAL PERFORMANCE

2/9 ITEMS • 20 WEIGHT

5/20

25% INTENSITY

 **Pre-Verify All** **Clear Items****PAGE SPEED** (5 PTS)**0/5**☐ **Google PSI score > 70 desktop (simulated)** **+2 Pts**

Aim for a Google PageSpeed Insights score above 70 for desktop. Optimize images, leverage browser caching, and minimize render-blocking resources.

[KB-DIAGNOSTIC](#) ☐ **Google PSI score > 50 mobile (simulated)** **+3 Pts**

Mobile speed is critical. Aim for a Google PageSpeed Insights score above 50 for mobile. Prioritize above-the-fold content loading.

CORE WEB VITALS (5 PTS)**0/5**☐ **LCP < 2.5s (simulated)** **+2 Pts**

Largest Contentful Paint should be under 2.5 seconds. Optimize server response times and resource load times.

[KB-DIAGNOSTIC](#) ☐ **CLS < 0.1 (simulated)** **+2 Pts**

Cumulative Layout Shift should be under 0.1. Always include size attributes on images and videos, and reserve space for ads.

[KB-DIAGNOSTIC](#) ☐ **FID < 100ms / INP good (simulated)** **+1 Pts**

First Input Delay should be under 100ms. Break up long JavaScript tasks and optimize event handlers.

[KB-DIAGNOSTIC](#) **SECURE SITE (HTTPS)** (2 PTS)**2/2** **Valid SSL cert, no mixed content****+2 Pts****RESPONSIVE LAYOUT & VIEWPORT** (3 PTS)**3/3**

**Uses media queries and scales on mobile****+3 Pts****404/BROKEN LINKS & ERRORS (5 PTS)****0/5****No 404 errors on main pages****+3 Pts**

Regularly scan for and fix 404 errors. Set up proper 301 redirects for deleted or moved pages.

**No broken internal or external links (simulated)****+2 Pts**

Regularly scan for and fix broken internal and external links. Broken links frustrate users and can harm SEO.

**USER EXPERIENCE & ENGAGEMENT SIGNALS****0/12 ITEMS • 20 WEIGHT****0/20****0%
INTENSITY****Pre-Verify All****Clear Items****UI/UX SIGNALS (5 PTS)****0/5****Clean, professional design with good readability****+2 Pts**

Maintain a clean, professional design that instills trust in visitors. Use readable fonts and proper contrast.

**No excessive ads/pop-ups, intrusive interstitials avoided****+2 Pts**

Avoid cluttering your site with excessive ads, intrusive pop-ups, or interstitials that block content.

**Readable fonts and adequate text sizes****+1 Pts**

Use readable fonts with appropriate sizing (minimum 16px for body text) for comfortable reading.

NAVIGATION AND SITEMAP (3 PTS)**0/3**

- ☐ **Navigation bar/menu present on all pages** **+1Pts**
Ensure consistent, easy-to-use navigation is present on every page.
- ☐ **Breadcrumbs or footer nav exists** **+1Pts**
Implement breadcrumbs for easier navigation on content-rich sites or ensure a comprehensive footer navigation.
- ☐ **HTML sitemap or clear sidebar links** **+1Pts**
Provide an HTML sitemap or clear sidebar navigation for users to easily find content.

ENGAGEMENT & ANALYTICS (4 PTS)**0/4**

- ☐ **Google Analytics or similar script installed (simulated)** **+2 Pts**
Install Google Analytics or a similar analytics platform to track and understand your traffic patterns.
- ☐ **Comments or user interaction visible (optional, but good)** **+1Pts**
Encourage user engagement through comments sections or forums if appropriate for your site's niche and content.
- ☐ **Bounce rate indicators (simulated, e.g., <70%)** **+1Pts**
Monitor bounce rate; high bounce rates might indicate poor content relevance, UX issues, or slow loading times.

BACKLINK & TRAFFIC SIGNALS (8 PTS)**0/8**

- ☐ **Some organic traffic (simulated > 0)** **+3 Pts**
Your site should have organic traffic from search engines. Focus on SEO and content marketing to build traffic.
- ☐ **Backlink count > 10 (simulated, even small ones)** **+2 Pts**
Build quality backlinks from other websites to improve your domain authority and trustworthiness.

**At least 2 pages indexed in Google (simulated)****+3 Pts**

Ensure your key pages are indexed by Google. Check using 'site:yourdomain.com' search in Google and monitor Google Search Console.
